PROGRAMME

Registration from 8.30

Join us for an enriching event dedicated to exploring how effective assessment can strengthen English communication skills and enhance student motivation.

Oxford's evidence-based approach to language assessment is designed to support meaningful learning and real-world communicative competence.

Through practical examples and classroom insights, we will examine how clear learning objectives, purposeful assessment tasks, and constructive feedback can help learners track their progress, build confidence, and stay engaged throughout their language learning journey.

In collaboration with:

Rizzoli
EDUCATION

 **Oxford
Test of English**

- Participation is free of charge.
- A certificate of attendance will be issued.
